This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

FORTY-NINTH CONGRESS, FIRST SESSION.

[PUBLIC RESOLUTION—NO. 24.]

Joint resolution authorizing the preparation of a compilation of the reports of committees of the Senate and House of Representatives.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That there be prepared under the direction of the Joint Committee of Printing, a compilation of the reports of the Senate and House of Representatives from the Fourteenth to the Forty-eighth Congress, inclusive, classified by committees, arranged, indexed, and bound in suitable volumes for the use of the standing committees of the two Houses of Congress. And the sum of seven thousand seven hundred and fifty dollars, or so much thereof as may be found necessary, is hereby appropriated out of any money in the Treasury not otherwise appropriated, for the preparation of said work, which sum may be paid by the Secretary of the Treasury upon the order of the chairman of said Joint Committee, as additional pay or compensation to any officer or employee of the United States.

Resolved further, That the Clerk of the House and Secretary of the Senate be, and they are hereby directed, to procure and file, for the use of their respective Houses, copies of all reports made by each committee of all succeeding Congresses; and that the Clerk of the House and the Secretary of the Senate be, and they are hereby, authorized and directed at the close of each session of Congress, to cause said reports to be indexed and bound, one copy to be deposited in the library of each House and one copy in the room of the committee from which the reports emanated.

Approved, July 29, 1886.

COMPILER'S NOTICE.

This compilation embraces all the printed reports made by both Houses of Congress from the commencement of the Fourteenth to the close of the Forty-ninth Congress. They are classified by committees and arranged in numerical order. The collection for each committee is divided into volumes of suitable size. Each committee has a separate index, a copy being bound in each volume.

The SPECIAL and SELECT reports are all compiled in one collection having one index, a copy of which is bound in each volume.

The plan throughout the compilation is to place each report to the committee from which it was reported, without reference to the subject-matter.

The House and Senate reports are compiled separately. Care will be required in noticing the chronological order, as in some instances an entire session or Congress may not appear in certain volumes from the fact that during this period no reports were made by this committee.

COMPILER'S NOTICE.

This compilation embraces all the printed reports made by both Houses of Congress from the commencement of the Fourteenth to the close of the Forty-ninth Congress. They are classified by committees and arranged in numerical order. The collection for each committee is divided into volumes of suitable size. Each committee has a separate index, a copy being bound in each volume.

The SPECIAL and SELECT reports are all compiled in one collection having one index, a copy of which is bound in each volume.

The plan throughout the compilation is to place each report to the committee from which it was reported, without reference to the subject-matter.

The House and Senate reports are compiled separately. Care will be required in noticing the chronological order, as in some instances an entire session or Congress may not appear in certain volumes from the fact that during this period no reports were made by this committee.

And the sum of seven thousand seven hundred and fifty dollars, or so much thereof as may be found necessary, is hereby appropriated out of any money in the Treasury not otherwise appropriated, for the preparation of said work, which sum may be paid by the Secretary of the Treasury upon the order of the chairman of said Joint Committee, as additional pay or compensation to any officer or employee of the United States.

Resolved further, That the Clerk of the House and Secretary of the Senate be, and they are hereby directed, to procure and file, for the use of their respective Houses, copies of all reports made by each committee of all succeeding Congresses; and that the Clerk of the House and the Secretary of the Senate be, and they are hereby, authorized and directed at the close of each session of Congress, to cause said reports to be indexed and bound, one copy to be deposited in the library of each House and one copy in the room of the committee from which the reports emanated.

Approved, July 29, 1886.

COMPILER'S NOTICE.

This compilation embraces all the printed reports made by both Houses of Congress from the commencement of the Fourteenth to the close of the Forty-ninth Congress. They are classified by committees and arranged in numerical order. The collection for each committee is divided into volumes of suitable size. Each committee has a separate index, a copy being bound in each volume.

The SPECIAL and SELECT reports are all compiled in one collection having one index, a copy of which is bound in each volume.

The plan throughout the compilation is to place each report to the committee from which it was reported, without reference to the subject-matter.

The House and Senate reports are compiled separately. Care will be required in noticing the chronological order, as in some instances an entire session or Congress may not appear in certain volumes from the fact that during this period no reports were made by this committee.

COMPILER'S NOTICE.

This compilation embraces all the printed reports made by both Houses of Congress from the commencement of the Fourteenth to the close of the Forty-ninth Congress. They are classified by committees and arranged in numerical order. The collection for each committee is divided into volumes of suitable size. Each committee has a separate index, a copy being bound in each volume.

The SPECIAL and SELECT reports are all compiled in one collection, having one index, a copy of which is bound in each volume.

The plan throughout the compilation is to place each report to the committee from which it was reported, without reference to the subject-matter.

The House and Senate reports are compiled separately. Care will be required in noticing the chronological order, as in some instances an entire session or Congress may not appear in certain volumes from the fact that during this period no reports were made by this committee.

FROM THE FOURTEENTH CONGRESS, 1815, TO THE FORTY-NINTH CONGRESS, 1887, INCLUSIVE,

IN FIVE VOLUMES.

COMPILED, UNDER THE DIRECTION OF THE JOINT COMMITTEE ON PRINTING,

BY

T. H. McKEE,

CLERK, DOCUMENT ROOM, UNITED STATES SENATE.

WASHINGTON:
GOVERNMENT PRINTING OFFICE.
1887.

9208 D C

FORTY-NINTH CONGRESS, FIRST SESSION.

[PUBLIC RESOLUTION—No. 24.]

Joint resolution authorizing the preparation of a compilation of the reports of committees of the Senate and House of Representatives.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That there be prepared under the direction of the Joint Committee of Printing, a compilation of the reports of the Senate and House of Representatives from the Fourteenth to the Forty-eighth Congress, inclusive, classified by committees, arranged, indexed, and bound in suitable volumes for the use of the standing committees of the two Houses of Congress. And the sum of seven thousand seven hundred and fifty dollars, or so much thereof as may be found necessary, is hereby appropriated out of any money in the Treasury not otherwise appropriated, for the preparation of said work, which sum may be paid by the Secretary of the Treasury upon the order of the chairman of said Joint Committee, as additional pay or compensation to any officer or employee of the United States.

Resolved further, That the Clerk of the House and Secretary of the Senate be, and they are hereby directed, to procure and file, for the use of their respective Houses, copies of all reports made by each committee of all succeeding Congresses; and that the Clerk of the House and the Secretary of the Senate be, and they are hereby, authorized and directed at the close of each session of Congress, to cause said reports to be indexed and bound, one copy to be deposited in the library of each House and one copy in the room of the committee from which the reports emanated.

Approved, July 29, 1886.

COMPILER'S NOTICE.

This compilation embraces all the printed reports made by both Houses of Congress from the commencement of the Fourteenth to the close of the Forty-ninth Congress. They are classified by committees and arranged in numerical order. The collection for each committee is divided into volumes of suitable size. Each committee has a separate index, a copy being bound in each volume.

The SPECIAL and SELECT reports are all compiled in one collection having one index, a copy of which is bound in each volume.

The plan throughout the compilation is to place each report to the committee from which it was reported, without reference to the subject-matter.

The House and Senate reports are compiled separately. Care will be required in noticing the chronological order, as in some instances an entire session or Congress may not appear in certain volumes from the fact that during this period no reports were made by this committee.

T. H. McKEE.

Approved, July 29, 1886.

COMPILER'S NOTICE.

This compilation embraces all the printed reports made by both Houses of Congress from the commencement of the Fourteenth to the close of the Forty-ninth Congress. They are classified by committees and arranged in numerical order. The collection for each committee is divided into volumes of suitable size. Each committee has a separate index, a copy being bound in each volume.

The SPECIAL and SELECT reports are all compiled in one collection having one index, a copy of which is bound in each volume.

The plan throughout the compilation is to place each report to the committee from which it was reported, without reference to the subject-matter.

The House and Senate reports are compiled separately. Care will be required in noticing the chronological order, as in some instances an entire session or Congress may not appear in certain volumes from the fact that during this period no reports were made by this committee.

COMPILER'S NOTICE.

This compilation embraces all the printed reports made by both Houses of Congress from the commencement of the Fourteenth to the close of the Forty-ninth Congress. They are classified by committees and arranged in numerical order. The collection for each committee is divided into volumes of suitable size. Each committee has a separate index, a copy being bound in each volume.

The SPECIAL and SELECT reports are all compiled in one collection having one index, a copy of which is bound in each volume.

The plan throughout the compilation is to place each report to the committee from which it was reported, without reference to the subject-matter.

The House and Senate reports are compiled separately. Care will be required in noticing the chronological order, as in some instances an entire session or Congress may not appear in certain volumes from the fact that during this period no reports were made by this committee.

Approved, July 29, 1886.

COMPILER'S NOTICE.

This compilation embraces all the printed reports made by both Houses of Congress from the commencement of the Fourteenth to the close of the Forty-ninth Congress. They are classified by committees and arranged in numerical order. The collection for each committee is divided into volumes of suitable size. Each committee has a separate index, a copy being bound in each volume.

The SPECIAL and SELECT reports are all compiled in one collection having one index, a copy of which is bound in each volume.

The plan throughout the compilation is to place each report to the committee from which it was reported, without reference to the subject-matter.

The House and Senate reports are compiled separately. Care will be required in noticing the chronological order, as in some instances an entire session or Congress may not appear in certain volumes from the fact that during this period no reports were made by this committee.

OF THE

COMMITTEE ON INDIAN AFFAIRS,

HOUSE OF REPRESENTATIVES,

FROM THE ORGANIZATION OF THE COMMITTEE, DECEMBER 17, 1821, TO THE CLOSE OF THE FORTY-NINTH CONGRESS, 1887, INCLUSIVE.

IN TEN VOLUMES.

COMPILED, UNDER THE DIRECTION OF THE JOINT COMMITTEE ON PRINTING,

BY

T. H. McKEE,

CLERK, DOCUMENT ROOM, UNITED STATES SENATE.

WASHINGTON:
GOVERNMENT PRINTING OFFICE.
1887.

[PUBLIC RESOLUTION—No. 24.]

Joint resolution authorizing the preparation of a compilation of the reports of committees of the Senate and House of Representatives.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That there be prepared under the direction of the Joint Committee of Printing, a compilation of the reports of the Senate and House of Representatives from the Fourteenth to the Forty-eighth Congress, inclusive, classified by committees, arranged, indexed, and bound in suitable volumes for the use of the standing committees of the two Houses of Congress. And the sum of seven thousand seven hundred and fifty dollars, or so much thereof as may be found necessary, is hereby appropriated out of any money in the Treasury not otherwise appropriated, for the preparation of said work, which sum may be paid by the Secretary of the Treasury upon the order of the chairman of said Joint Committee, as additional pay or compensation to any officer or employee of the United States.

Resolved further, That the Clerk of the House and Secretary of the Senate be, and they are hereby directed, to procure and file, for the use of their respective Houses, copies of all reports made by each committee of all succeeding Congresses; and that the Clerk of the House and the Secretary of the Senate be, and they are hereby, authorized and directed at the close of each session of Congress, to cause said reports to be indexed and bound, one copy to be deposited in the library of each House and one copy in the room of the committee from which the reports emanated.

Approved, July 29, 1886.

COMPILER'S NOTICE.

This compilation embraces all the printed reports made by both Houses of Congress from the commencement of the Fourteenth to the close of the Forty-ninth Congress. They are classified by committees and arranged in numerical order. The collection for each committee is divided into volumes of suitable size. Each committee has a separate index, a copy being bound in each volume.

The SPECIAL and SELECT reports are all compiled in one collection having one index, a copy of which is bound in each volume.

The plan throughout the compilation is to place each report to the committee from which it was reported, without reference to the subject-matter.

The House and Senate reports are compiled separately. Care will be required in noticing the chronological order, as in some instances an entire session or Congress may not appear in certain volumes from the fact that during this period no reports were made by this committee.

T. H. McKEE.

COMPILER'S NOTICE.

This compilation embraces all the printed reports made by both Houses of Congress from the commencement of the Fourteenth to the close of the Forty-ninth Congress. They are classified by committees and arranged in numerical order. The collection for each committee is divided into volumes of suitable size. Each committee has a separate index, a copy being bound in each volume.

The SPECIAL and SELECT reports are all compiled in one collection having one index, a copy of which is bound in each volume.

The plan throughout the compilation is to place each report to the committee from which it was reported, without reference to the subject-matter.

The House and Senate reports are compiled separately. Care will be required in noticing the chronological order, as in some instances an entire session or Congress may not appear in certain volumes from the fact that during this period no reports were made by this committee.

T. H. McKEE.

FORTY-NINTH CONGRESS, FIRST SESSION.

[PUBLIC RESOLUTION—No. 24.]

Joint resolution authorizing the preparation of a compilation of the reports of committees of the Senate and House of Representatives.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That there be prepared under the direction of the Joint Committee of Printing, a compilation of the reports of the Senate and House of Representatives from the Fourteenth to the Forty-eighth Congress, inclusive, classified by committees, arranged, indexed, and bound in suitable volumes for the use of the standing committees of the two Houses of Congress. And the sum of seven thousand seven hundred and fifty dollars, or so much thereof as may be found necessary, is hereby appropriated out of any money in the Treasury not otherwise appropriated, for the preparation of said work, which sum may be paid by the Secretary of the Treasury upon the order of the chairman of said Joint Committee, as additional pay or compensation to any officer or employee of the United States.

Resolved further, That the Clerk of the House and Secretary of the Senate be, and they are hereby directed, to procure and file, for the use of their respective Houses, copies of all reports made by each committee of all succeeding Congresses; and that the Clerk of the House and the Secretary of the Senate be, and they are hereby, authorized and directed at the close of each session of Congress, to cause said reports to be indexed and bound, one copy to be deposited in the library of each House and one copy in the room of the committee from which the reports emanated.

Approved, July 29, 1886.

COMPILER'S NOTICE.

This compilation embraces all the printed reports made by both Houses of Congress from the commencement of the Fourteenth to the close of the Forty-ninth Congress. They are classified by committees and arranged in numerical order. The collection for each committee is divided into volumes of suitable size. Each committee has a separate index, a copy being bound in each volume.

The SPECIAL and SELECT reports are all compiled in one collection having one index, a copy of which is bound in each volume.

The plan throughout the compilation is to place each report to the committee from which it was reported, without reference to the subject-matter.

The House and Senate reports are compiled separately. Care will be required in noticing the chronological order, as in some instances an entire session or Congress may not appear in certain volumes from the fact that during this period no reports were made by this committee.

T. H. McKEE.

Approved, July 29, 1886.

COMPILER'S NOTICE.

This compilation embraces all the printed reports made by both Houses of Congress from the commencement of the Fourteenth to the close of the Forty-ninth Congress. They are classified by committees and arranged in numerical order. The collection for each committee is divided into volumes of suitable size. Each committee has a separate index, a copy being bound in each volume.

The SPECIAL and SELECT reports are all compiled in one collection having one index, a copy of which is bound in each volume.

The plan throughout the compilation is to place each report to the committee from which it was reported, without reference to the subject-matter.

The House and Senate reports are compiled separately. Care will be required in noticing the chronological order, as in some instances an entire session of Congress may not appear in certain volumes from the fact that during this period no reports were made by this committee.

[PUBLIC RESOLUTION—NO. 24.]

Joint resolution authorizing the preparation of a compilation of the reports of committees of the Senate and House of Representatives.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That there be prepared under the direction of the Joint Committee of Printing, a compilation of the reports of the Senate and House of Representatives from the Fourteenth to the Forty-eighth Congress, inclusive, classified by committees, arranged, indexed, and bound in suitable volumes for the use of the standing committees of the two Houses of Congress. And the sum of seven thousand seven hundred and fifty dollars, or so much thereof as may be found necessary, is hereby appropriated out of any money in the Treasury not otherwise appropriated, for the preparation of said work, which sum may be paid by the Secretary of the Treasury upon the order of the chairman of said Joint Committee, as additional pay or compensation to any officer or employee of the United States.

Approved, July 29, 1886.

COMPILER'S NOTICE.

This compilation embraces all the printed reports made by both Houses of Congress from the commencement of the Fourteenth to the close of the Forty-ninth Congress. They are classified by committees and arranged in numerical order. The collection for each committee is divided into volumes of suitable size. Each committee has a separate index, a copy being bound in each volume.

The SPECIAL and SELECT reports are all compiled in one collection having one index, a copy of which is bound in each volume.

The plan throughout the compilation is to place each report to the committee from which it was reported, without reference to the subject-matter.

The House and Senate reports are compiled separately. Care will be required in noticing the chronological order, as in some instances an entire session or Congress may not appear in certain volumes from the fact that during this period no reports were made by this committee.

COMPILER'S NOTICE.

compilation embraces all the printed reports made by both
of Congress from the commencement of the Fourteenth to the
the Forty-ninth Congress. They are classified by committees
anged in numerical order. The collection for each committee is
into volumes of suitable size. Each committee has a separate
copy being bound in each volume.
SPECIAL and SELECT reports are all compiled in one collection
one index a copy of which is bound in each volume.
plan throughout the compilation is to place each report to the
tee from which it was reported, without reference to the subject-

House and Senate reports are compiled separately. Care will
ired in noticing the chronological order, as in some instances an
ession or Congress may not appear in certain volumes from the
t during this period no reports were made by this committee.

COMPILER'S NOTICE.

This compilation embraces all the printed reports made by both uses of Congress from the commencement of the Fourteenth to the se of the Forty-ninth Congress. They are classified by committees l arranged in numerical order. The collection for each committee is ided into volumes of suitable size. Each committee has a separate lex, a copy being bound in each volume.

The SPECIAL and SELECT reports are all compiled in one collection ving one index, a copy of which is bound in each volume.

The plan throughout the compilation is to place each report to the mmittee from which it was reported, without reference to the subject-tter.

The House and Senate reports are compiled separately. Care will required in noticing the chronological order, as in some instances an tire session or Congress may not appear in certain volumes from the ct that during this period no reports were made by this committee.

REPORTS

OF THE

COMMITTEE ON PRIVATE LAND CLAIMS,

HOUSE OF REPRESENTATIVES,

FROM THE FIFTEENTH CONGRESS, 1816, TO THE FORTY-NINTH CONGRESS, 1887, INCLUSIVE,

IN EIGHT VOLUMES.

COMPILED, UNDER THE DIRECTION OF THE JOINT COMMITTEE ON PRINTING,

BY

T. H. McKEE,

CLERK, DOCUMENT ROOM, UNITED STATES SENATE.

WASHINGTON:
GOVERNMENT PRINTING OFFICE.
1887.

9225 PR L H

FORTY-NINTH CONGRESS, FIRST SESSION.

[PUBLIC RESOLUTION—No. 24.]

Joint resolution authorizing the preparation of a compilation of the reports of committees of the Senate and House of Representatives.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That there be prepared under the direction of the Joint Committee of Printing, a compilation of the reports of the Senate and House of Representatives from the Fourteenth to the Forty-eighth Congress, inclusive, classified by committees, arranged, indexed, and bound in suitable volumes for the use of the standing committees of the two Houses of Congress. And the sum of seven thousand seven hundred and fifty dollars, or so much thereof as may be found necessary, is hereby appropriated out of any money in the Treasury not otherwise appropriated, for the preparation of said work, which sum may be paid by the Secretary of the Treasury upon the order of the chairman of said Joint Committee, as additional pay or compensation to any officer or employee of the United States.

Resolved further, That the Clerk of the House and Secretary of the Senate be, and they are hereby directed, to procure and file, for the use of their respective Houses, copies of all reports made by each committee of all succeeding Congresses; and that the Clerk of the House and the Secretary of the Senate be, and they are hereby, authorized and directed at the close of each session of Congress, to cause said reports to be indexed and bound, one copy to be deposited in the library of each House and one copy in the room of the committee from which the reports emanated.

Approved, July 29, 1886.

COMPILER'S NOTICE.

This compilation embraces all the printed reports made by both Houses of Congress from the commencement of the Fourteenth to the close of the Forty-ninth Congress. They are classified by committees and arranged in numerical order. The collection for each committee is divided into volumes of suitable size. Each committee has a separate index, a copy being bound in each volume.

The SPECIAL and SELECT reports are all compiled in one collection having one index, a copy of which is bound in each volume.

The plan throughout the compilation is to place each report to the committee from which it was reported, without reference to the subject-matter.

The House and Senate reports are compiled separately. Care will be required in noticing the chronological order, as in some instances an entire session or Congress may not appear in certain volumes from the fact that during this period no reports were made by this committee.

T. H. McKEE.

[PUBLIC RESOLUTION—No. 24.]

Joint resolution authorizing the preparation of a compilation of the reports of committees of the Senate and House of Representatives.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That there be prepared under the direction of the Joint Committee of Printing, a compilation of the reports of the Senate and House of Representatives from the Fourteenth to the Forty-eighth Congress, inclusive, classified by committees, arranged, indexed, and bound in suitable volumes for the use of the standing committees of the two Houses of Congress. COMPILER'S NOTICE.

i compilation embraces all the printed reports made by both
s of Congress from the commencement of the Fourteenth to the
of the Forty-ninth Congress. They are classified by committees
ranged in numerical order. The collection for each committee is
d into volumes of suitable size. Each committee has a separate
a copy being bound in each volume.

SPECIAL and SELECT reports are all compiled in one collection
g one index, a copy of which is bound in each volume.

plan throughout the compilation is to place each report to the
ittee from which it was reported, without reference to the subject-
r.

House and Senate reports are compiled separately. Care will
uired in noticing the chronological order, as in some instances an
session or Congress may not appear in certain volumes from the
iat during this period no reports were made by this committee.

Approved, July 29, 1886.

COMPILER'S NOTICE.

This compilation embraces all the printed reports made by both Houses of Congress from the commencement of the Fourteenth to the close of the Forty-ninth Congress. They are classified by committees and arranged in numerical order. The collection for each committee is divided into volumes of suitable size. Each committee has a separate index, a copy being bound in each volume.

The SPECIAL and SELECT reports are all compiled in one collection having one index, a copy of which is bound in each volume.

The plan throughout the compilation is to place each report to the committee from which it was reported, without reference to the subject-matter.

The House and Senate reports are compiled separately. Care will be required in noticing the chronological order, as in some instances an entire session or Congress may not appear in certain volumes from the fact that during this period no reports were made by this committee.

T. H. McKEE.

FORTY-NINTH CONGRESS, FIRST SESSION.

[PUBLIC RESOLUTION—No. 24.]

Joint resolution authorizing the preparation of a compilation of the reports of committees of the Senate and House of Representatives.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That there be prepared under the direction of the Joint Committee of Printing, a compilation of the reports of the Senate and House of Representatives from the Fourteenth to the Forty-eighth Congress, inclusive, classified by committees, arranged, indexed, and bound in suitable volumes for the use of the standing committees of the two Houses of Congress. And the sum of seven thousand seven hundred and fifty dollars, or so much thereof as may be found necessary, is hereby appropriated out of any money in the Treasury not otherwise appropriated, for the preparation of said work, which sum may be paid by the Secretary of the Treasury upon the order of the chairman of said Joint Committee, as additional pay or compensation to any officer or employee of the United States.

Resolved further, That the Clerk of the House and Secretary of the Senate be, and they are hereby directed, to procure and file, for the use of their respective Houses, copies of all reports made by each committee of all succeeding Congresses; and that the Clerk of the House and the Secretary of the Senate be, and they are hereby, authorized and directed at the close of each session of Congress, to cause said reports to be indexed and bound, one copy to be deposited in the library of each House and one copy in the room of the committee from which the reports emanated.

Approved, July 29, 1886.

COMPILER'S NOTICE.

This compilation embraces all the printed reports made by both Houses of Congress from the commencement of the Fourteenth to the close of the Forty-ninth Congress. They are classified by committees and arranged in numerical order. The collection for each committee is divided into volumes of suitable size. Each committee has a separate index, a copy being bound in each volume.

The SPECIAL and SELECT reports are all compiled in one collection having one index, a copy of which is bound in each volume.

The plan throughout the compilation is to place each report to the committee from which it was reported, without reference to the subject-matter.

The House and Senate reports are compiled separately. Care will be required in noticing the chronological order, as in some instances an entire session or Congress may not appear in certain volumes from the fact that during this period no reports were made by this committee.

T. H. McKEE.

COMPILER'S NOTICE.

This compilation embraces all the printed reports made by both Houses of Congress from the commencement of the Fourteenth to the close of the Forty-ninth Congress. They are classified by committees and arranged in numerical order. The collection for each committee is divided into volumes of suitable size. Each committee has a separate index, a copy being bound in each volume.

The SPECIAL and SELECT reports are all compiled in one collection having one index, a copy of which is bound in each volume.

The plan throughout the compilation is to place each report to the committee from which it was reported, without reference to the subject-matter.

The House and Senate reports are compiled separately. Care will be required in noticing the chronological order, as in some instances an entire session or Congress may not appear in certain volumes from the fact that during this period no reports were made by this committee.

T. H. McKEE.

FORTY-NINTH CONGRESS, FIRST SESSION.

[PUBLIC RESOLUTION—No. 24.]

Joint resolution authorizing the preparation of a compilation of the reports of committees of the Senate and House of Representatives.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That there be prepared under the direction of the Joint Committee of Printing, a compilation of the reports of the Senate and House of Representatives from the Fourteenth to the Forty-eighth Congress, inclusive, classified by committees, arranged, indexed, and bound in suitable volumes for the use of the standing committees of the two Houses of Congress. And the sum of seven thousand seven hundred and fifty dollars, or so much thereof as may be found necessary, is hereby appropriated out of any money in the Treasury not otherwise appropriated, for the preparation of said work, which sum may be paid by the Secretary of the Treasury upon the order of the chairman of said Joint Committee, as additional pay or compensation to any officer or employee of the United States.

Resolved further, That the Clerk of the House and Secretary of the Senate be, and they are hereby directed, to procure and file, for the use of their respective Houses, copies of all reports made by each committee of all succeeding Congresses; and that the Clerk of the House and the Secretary of the Senate be, and they are hereby, authorized and directed at the close of each session of Congress, to cause said reports to be indexed and bound, one copy to be deposited in the library of each House and one copy in the room of the committee from which the reports emanated.

Approved, July 29, 1886.

COMPILER'S NOTICE.

This compilation embraces all the printed reports made by both Houses of Congress from the commencement of the Fourteenth to the close of the Forty-ninth Congress. They are classified by committees and arranged in numerical order. The collection for each committee is divided into volumes of suitable size. Each committee has a separate index, a copy being bound in each volume.

The SPECIAL and SELECT reports are all compiled in one collection having one index, a copy of which is bound in each volume.

The plan throughout the compilation is to place each report to the committee from which it was reported, without reference to the subject-matter.

The House and Senate reports are compiled separately. Care will be required in noticing the chronological order, as in some instances an entire session or Congress may not appear in certain volumes from the fact that during this period no reports were made by this committee.

COMPILER'S NOTICE.

This compilation embraces all the printed reports made by both Houses of Congress from the commencement of the Fourteenth to the close of the Forty-ninth Congress. They are classified by committees and arranged in numerical order. The collection for each committee is divided into volumes of suitable size. Each committee has a separate index, a copy being bound in each volume.

The SPECIAL and SELECT reports are all compiled in one collection having one index, a copy of which is bound in each volume.

The plan throughout the compilation is to place each report to the committee from which it was reported, without reference to the subject-matter.

The House and Senate reports are compiled separately. Care will be required in noticing the chronological order, as in some instances an entire session or Congress may not appear in certain volumes from the fact that during this period no reports were made by this committee.

T. H. McKEE.

COMPILER'S NOTICE.

This compilation embraces all the printed reports made by both Houses of Congress from the commencement of the Fourteenth to the close of the Forty-ninth Congress. They are classified by committees and arranged in numerical order. The collection for each committee is divided into volumes of suitable size. Each committee has a separate index, a copy being bound in each volume.

The SPECIAL and SELECT reports are all compiled in one collection having one index, a copy of which is bound in each volume.

The plan throughout the compilation is to place each report to the committee from which it was reported, without reference to the subject-matter.

The House and Senate reports are compiled separately. Care will be required in noticing the chronological order, as in some instances an entire session or Congress may not appear in certain volumes from the fact that during this period no reports were made by this committee.

T. H. McKEE.

FORTY-NINTH CONGRESS, FIRST SESSION.

[PUBLIC RESOLUTION—No. 24.]

Joint resolution authorizing the preparation of a compilation of the reports of c mittees of the Senate and House of Representatives.

Resolved by the Senate and House of Representatives of the Un States of America in Congress assembled, That there be prepared un the direction of the Joint Committee of Printing, a compilation of reports of the Senate and House of Representatives from the Fo teenth to the Forty-eighth Congress, inclusive, classified by committ arranged, indexed, and bound in suitable volumes for the use of standing committees of the two Houses of Congress. And the sum seven thousand seven hundred and fifty dollars, or so much thereof may be found necessary, is hereby appropriated out of any money the Treasury not otherwise appropriated, for the preparation of s work, which sum may be paid by the Secretary of the Treasury u the order of the chairman of said Joint Committee, as additional pa compensation to any officer or employee of the United States.

Resolved further, That the Clerk of the House and Secretary of Senate be, and they are hereby directed, to procure and file, for the of their respective Houses, copies of all reports made by each com tee of all succeeding Congresses; and that the Clerk of the House the Secretary of the Senate be, and they are hereby, authorized directed at the close of each session of Congress, to cause said rep to be indexed and bound, one copy to be deposited in the library each House and one copy in the room of the committee from which reports emanated.

Approved, July 29, 1886.

COMPILER'S NOTICE.

This compilation embraces all the printed reports made by both Houses of Congress from the commencement of the Fourteenth to the close of the Forty-ninth Congress. They are classified by committees and arranged in numerical order. The collection for each committee is divided into volumes of suitable size. Each committee has a separate index, a copy being bound in each volume.

The SPECIAL and SELECT reports are all compiled in one collection having one index, a copy of which is bound in each volume.

The plan throughout the compilation is to place each report to the committee from which it was reported, without reference to the subject-matter.

The House and Senate reports are compiled separately. Care will be required in noticing the chronological order, as in some instances an entire session or Congress may not appear in certain volumes from the fact that during this period no reports were made by this committee.

T. H. McKEE.
